& Policy Division

Dear Aster Adams:

I am writing this letter to provide the information requested in your letter concerning my petition for transfer of authority and control of First Phone Telecommunications business. The document number on that petition is 04-00293.

The original CNN was issued on September 11, 2001 with a case number of 01-00615. I have included a copy of that order.

Currently, First Phone has 101 customers in the state of Tennessee. The majority of those customers live in the Clarksville-Montgomery country area.

A petition of transfer and control has been sent to Bill Feldman at the Ky Public service commission in Frankfort, Ky. I am waiting for approval of that transfer. I have also contacted Bill Dever at the FCC about the transfer and was instructed to provide the information once the petition was approved. Our current FCC number is 823910.

This change of ownership and certificate transfer will effect the public in a positive way. The price of our products will be lower to help promote a more vigorous competitive environment in the state. The only effect the transfer will have on our customers is a lower telephone bill. Our customers will continue to receive the same great service that they have grown accustomed to from a customer service team that will stay intact. Enclosed is a copy of our letter notifying customers of our change.

The change at First Phone is nothing more than an ownership change. I have controlled operations, marketing, and every other facet of this business since it's origin in 2001 and will continue to do so.

Number 8. on the data request stated that I needed to correct a license that had been revoked by the secretary of state. I inquired in to that matter and discovered that it actually was an old dormant corporation that needed to be terminated. In order to terminate the corporation, a tax clearance needed to be issued. That has been accomplished as of December 21, 2004.

I have enclosed the requested documents along with copies of other documents that might be helpful. I hope this information will assist you in your analysis. If you have any questions, I can be contacted at 931-431-9442 or emailed at insu2507@msn.com.

Sincerely,

Jack Pruitte
